Platte River PHOTOGRAPHY WORKSHOP

CLASS DESCRIPTIONS

BASIC CAMERA (Beginners) with Chris Luse: Bring your camera and learn about your camera from the inside out, and how to properly expose a photograph using the manual setting.

INTRODUCTION TO PHOTOGRAPHY (Beginners) with Cathy Coddington Becker: Tools you can use today to create beautiful, thoughtful images! One class is not enough to learn everything that goes into telling stories with a camera! However, in this class we will discuss the tools you can use to create beautiful, thoughtful photographs. It doesn't matter if you choose film, a digital camera, or your iPhone! The timeless concepts are the same and the options are endless. This class will help you get started creating a style of your own and will take your photos from "snapshot to stellar"! A field trip to Washington Park will be an option if the weather permits.

IPHONE CAMERA SETTINGS with Cathy Coddington Becker: iPhone photography is quickly taking over the world, and users are turning out photos that are stunning! Do you feel left behind? No worries! After this quick class you will walk away with tools you didn't know you had, and feel more confident sharing what you create.

WYOMING WILDLIFE with Ron Hayes shares the best practices in photographing Wyoming wildlife in their natural habitat.

WYOMING LANDSCAPE with Sarah Johnson will go over camera settings for different light situations, slow shutter speed situations, high dynamic range and bracketing, and composition. Weather permitting, we will take a short field trip and do most of the class outside and hands on. Students, please bring your film camera or DSLR and let's take some pictures!

INTRODUCTION TO PHOTOSHOP EDITING with expert Shaun Peterson uncovers the capabilities of Photoshop and how to create digital art. Feel free to bring your laptop.

MEET THE INSTRUCTORS

Chris Luse, Manager of Wyoming Camera Outfitters for 9 years, has a Bachelor Degree in Fine Arts Photography from Florida State University and is a former Photography Instructor at Casper College. Chris specializes in not being specialized...he photographs it all!

Ron Hayes started as a Wyoming photographer and has transitioned into photography world wide. He is now one of four hosts on the Wild and Exposed Podcast which is currently the #1 Wildlife and Adventure Podcast on Apple.

Cathy Coddington Becker has been a professional photographer for the past 10 years. Her career has taken her from Victoria, B.C. to Boston, shooting everything from weddings and families, to clothing companies, pharmaceuticals, and cannabis! Her passion is shooting live theatre and she is currently the marketing director for Opera Wyoming in Casper.

Shaun Peterson's landscape images are breathtaking. His gallery, online at smpetersonphotography.com, features fine art images from Wyoming and beyond. He's captured the Milky Way and lightning over Devils Tower and perfect lighting over the Grand Tetons. He also captured totality during the Solar Eclipse of 2017. One look at his website and you will surely want to know some of this photographer's tips and tricks!

Sarah Johnson began shooting in 1996 and developed her own film. In the last 25 years she has studied and shot side-by-side with the world's greatest photographers including Tom Mangelson, Rick Salmon and Jennifer Woo. Her love for landscape and wildlife photography is one in million and she uses that to educate others.
